# REVERSALCOIN

Reversalcoin is a cryptocurrency based on Ethereum. It is ERC20 compliant and compatible with existing ERC20 portfolios.

Reversalcoin was created to support the innovative exchange project ReversalExchange.com, and will be used for loan completion, staking and any form of reward offered to users of the ReversalExchange.com trading platform.

Reversalcoin is community-based and is exchangeable with other crypto-currencies.

## **TRANSFER MONEY EASILY**

You can easily send Reversalcoin anywhere in the world in seconds, as long as the recipient is connected to the internet.

## **LITTLE TRANSFER FEES**

You can set the transfer fee. If you want to speed up the transaction, you can increase the cost as you wish. The amount of Reversalcoin you send will not affect the transfer fee.

## **ANONYMOUS TRANSACTIONS**

All transactions are recorded and displayed in Ethereum blockchain. Although you can define your identity anonymously, all your transactions can still be monitored via Blockchain Explorer.

## **EASY TRANSACTIONS**

Via internet you can transfer Reversalcoin anywhere in the world as long as the recipient is connected to the internet. The funds sent will be stored in the Reversalcoin portfolio.

## **NOT CONTROLLED BY THE INSTITUTIONS**

Reversalcoin uses a Blockchain database that is not controlled by any part. This system makes it possible to distribute digital information without copying it. All transactions are recorded live, are transparent and spread across multiple servers.

## **LIMITED NUMBER OF TOKENS**

There will only be 21 million Reversalcoin coins in the world. The price of Reversalcoin will increase as demand increases and the number of parts remains stable.

## **DIFFERENCE BETWEEN ETHERENUM, BITCOIN AND REVERSALCOIN**

In the world of crypto-currencies, Bitcoin, Ethereum and Reversalcoin are not very different; the big difference is the opportunity, services and the price.

Today Bitcoin price is worth more than USD 10,000, Reversalcoin brings you a great advantage because the price is still very low, and you will have the opportunity to achieve loan, staking and any form of reward offered to users of the ReversalExchange.com trading platform.

## **ICO (INITIAL COIN OFFERING)**

### **TARGET OF ICO**

Through this ICO our goal is to promote Reversalcoin.

We aim to provide opportunities for everyone to have Reversalcoin immediately at a lower price. We fully understand the development of the current payment instruments. Many countries have used cryptocurrency as a digital payment tool. With Reversalcoin, we firmly believe that we will become a big part of the global cryptocurrency development.

### **THE OBJECTIVE OF THE ICO**

We believe that building a cryptocurrency coin and exchanging cryptocurrency is not an easy task. Therefore, we need additional funds to recruit programmers, servers and to advertise.

### **EARLY CONTRIBUTION**

You have the opportunity to contribute very early to the opportunities of the ICO that we start.

We will launch **7.000.000** Reversalcoin with an opening price of **0.75 USD** per token. Take this first opportunity to get coins at a very low price. Unsold parts will be burned after the ICO.

### **ADVANTAGES OF REVERSALCOIN**

We offer a great opportunity for a profitable project. Reversalcoin develops innovative cryptocurrency trading concepts to make cryptocurrency accessible to everyone. Take the chance to be part of a great project that will change the world in the future years.

## **WHAT CAN I DO REVERSALCOIN AFTER ICO?**

After the end of the ICO program, you can use Reversalcoin for trading on ReversalExchange.com. You can also earn interest through the loan program and staking. Reversalcoin can also be used for merchant payments or the registration of new coins on ReversalExchange.com; you can also sell Reversalcoin on the market for immediate profit right after the end of the ICO.

## **THE PROGRAM OF JALONNEMENT**

With our staking program be rewarded by helping us build our community and a strong token value. We are working on new developments and want you to join us. We have active developers, designers and dedicated support who believe in the future of Reversalcoin. We currently offer staking rewards of up to 15% per year.

### **Annual staking rate**

Number of tokens	Staking Prime	minimum age
0 – 10k	+ 7%	24 H
10k – 20k	+ 10%	24 H
20k – 50k	+ 12.5%	24 H
50k – +	+ 15%	24 H

## **AN INNOVATIVE LENDING PROGRAM**

Our program combines two models: The Volatility lending and the Margin lending

This loan program is an innovative concept that is very interesting for passive investors and for those who do not want to have a hard time about return on investment.

### **VOLATILITY LENDING**

Totally in USD : this investment option allows you to benefit from the ReversalExchange volatility software. This volatility software buys and sells automatically on the market. You will receive a daily profit on your investment. You will receive your capital with the profits according to the table below.

#### **Volatility Lending Formula:**

Amount	Trading Bot	Prime	Release of capital
100 \$ - 9,990 \$	Volatility software V.0.2	No	90 Days
10 000 \$ - 24 990 \$	Volatility software V.0.2	+ 1,0% all 15 Days	90 Days
25 000 \$ - 49 990 \$	Volatility software V.0.2	+ 1,2% all 15 Days	90 Days
50 000 \$ - 100 000 \$	Volatility software V.0.2	+ 1,5% all 15 Days	90 Days

The Volatility Lending gives you the opportunity to earn up to 48% back on invest per month. You can withdraw your daily interest from the loan platform or reinvest it at any time.

## **THE MARGIN LENDING**

Unlike The **Volatility lending** , the **Margin lending** does not use US dollars as currency, so if you lend 1 00 RVC, you will get 1 00 RVC, not 1 00 USD.

The minimum loan of coins is 1 coin. All the coins in your wallet can be lent. The contract will be 90 days.

The daily commission will be distributed according to a payment formula and distributed in BTC.

Payment form

Daily profit for 1 RVC =  $(MV * FEE * 20\%) / \text{Total RVC loaned}$

Example

MV (market volume of RevesalExchange.com) = 3000 BTC

FEE market RevesalExchange.com = 0,3%

Total RVC loaned = 2 000 000

$((3\ 000 * 0.003 * 0.2) / 2.000.000) = 0.00000135$  BTC by RVC daily

With this estimate, if the RVC price is 0.00005000, the daily loan profit will be 1.2%.

Daily loan results may change depending on the number of loans and the volume of the market. The greater the volume of REVERSAL.com's market, the greater the profit generated. When the loan agreement is completed, you can withdraw your chips or renew your contract at will.

All coins in the loan program will then be stored and will not be exchanged. The purpose of this system is to reduce the coin circulating on the market. The scarcity will increase the price of Reversalcoin on the market. The less the coins circulate, the more the price will increase.

The number of coins in the loan program will not exceed the number of coins in public, and the commission for each piece will come from a safe source. By applying the system, there will be no gambling on Reversalcoin Lending Program.

## **ANTICIPATED TERMINATION**

If you want early termination of your loan, you can request it. It all depends on your goals and your personal needs. It takes a minimum of 45 days for a contract to have the effect of a request for early termination. Requests for cancellation are validated within 48 hours and an anticipation premium can be invoiced. Once your termination request is confirmed your funds are deposited on your account and you can withdraw them immediately.

## **AFFILIATION PROGRAM**

With the ReservalCoin Referral and Affiliate Program, you can earn extra coins by informing other users and referring them to the ReservalCoin community.

We offer a bonus program that allows you to win for every new user who signs up and joins ReservalCoin using your affiliate link.

The ReservalCoin Affiliate Program is designed with multiple levels. You will receive a commission every time one of your referrals do a lending.

Affiliate commissions from ICO purchases of your referrals can also be withdrawn at any time.
