MEETCOIN Revolutionary Cryptocurrency for Online Dating Industry

SUMMARY

MeetCoin is a decentralized cryptocurrency for Online Dating Industry.

Based on blockchain technology, it is a decentralized digital currency which can be use to pay for subscription and credits on dating sites.

It is a product of MeetWee.com - a popular dating site.

The purpose of this ICO is to enable us fund our projects at various levels in order to build a viable decentralized cryptocurrency that will be used as a payment system on popular dating sites, and pushing our dating site (MeeWee.com) to compete with the big players in the industry. .

DATING NICHE

The primary source of income for dating sites is sales of subscription and credits to users. As of the first quarter of 2017, Match.com had 3.44 million paid subscribers across all its platforms in North America.

Our vision is to create a viable payment gateway which will be use to carry out daily transactions on dating sites such as MeetWee, Badoo, Dating.com, Twoo, Tagged, Plenty of Fish etc.

Moving forward, we have secured partnership with 19 popular dating sites and in talks with other sites waiting for the launch of MeetCoin.

MARKET

Online Dating Niche is big, As of April 2017, the leading dating website in the United States was Match.com with a U.S. online user awareness reach of 67 percent.

Closest competitors were eHarmony.com, ChristianMingle and dating - app Tinder.

As of the first quarter of 2017, the Match Group had 3.44 million paid subscribers across all its platforms in North America.

Dating apps are also a lucrative business - as of February 2017, some of the highest-grossing social apps in the Apple App Store worldwide were dating apps.

In the United States, the top revenue generating iOS dating app was Match with monthly app revenues of 1.3 million U.S. Dollars.

Badoo alone makes over \$200M annually,
Plenty of Fish makes over \$100M annually and Zooks made \$178M.

This is just to mention a few, you can use Google to get more facts about the Online Dating Niche.

MeetCoin is coming to the market to take its place at the preferred payment gateway on these sites and apps with its friendly approach to providing level-playing ground for both the merchant and user.

MeetCoin is fast, secured and transactions are carried out anonymously

MEETCOIN Revolutionary Cryptocurrency for Online Dating Industry

PROBLEM

Online Dating Industry is estimated to worth over \$50bn with many players joining and developing new ideas to make dating more safer and fun to use.

Apart from the problem of safety, one big problem of dating site owners and the users is reliable, secured and anonymous payment method that will take care of their normal subscription without higher fees at the same providing higher level of anonymity.

Unfortunately, conventional payment gateway like Credit Card and Paypal cannot provide this.

Another problem is the issue of funding these payments especially in developing countries, MeetCoin is taking care of all these lapses.

SOLUTION

With our blockchain technology, MeetCoin is not only going to solve all the problems mentioned above but also improve on them.

Our blockchain technology will be solving the dating industry's biggest blockchain issues surrounding cross-border payments, anonymous payment, data accessibility, easy integration among other.

COMPARISON AMONG AVAILABLE PAYMENT SYSTEMS

PAYMENT SYSTEM	BLOCKCHAIN	ANONYMOUS PAYMENT	FEES
MEETCOIN	✓	✓	✗
CREDIT/DEBT CARD	✗	✗	✓
PAYPAL	✗	✗	✗

MEETCOIN Revolutionary Cryptocurrency for Online Dating Industry

TECHNOLOGY

MeetCoin Blockchain will be based on the Graphene DpoS Blockchain.

Graphene is an Open Source C++ Blockchain framework originally developed as the foundation of Bitshares, a decentralised cryptocurrency exchange marketplace.

At first, MeetCoin will be released on Ethereum ERC20 platform which the blockchain use as a financial registry and will later be deployed to Meet Blockchain Technology to enable a transparent, accountable and effective solution to many of the challenges within the online dating economy.

Some of the features of MeetCoin well crafted blockchain technology includes:

1. MeetCone High Performance Blockchain
2. Meet LiteSpeed Transactions
3. Proof of View
4. DPoS

Blockchain scalability and performance is the number one priority for a commercial system like MeetCoin. In order to achieve the performance levels required for such a large microtransaction based ecosystem, the MeetCoin team needed to achieve advances in performance that were order of magnitudes higher than what is available from most currently available blockchain solutions.

In order to maintain a stable and scalable solution for such a large potential market, reliance on a third party blockchain would create a major point of failure within the MeetCoin economy.

Creating the MeetCoin Blockchain yields significant advantages:

- Gives MeetCoin the ability to quickly add new transaction types and Smart Contracts to the blockchain
- Transaction fees get contributed directly back into the MeetCoin economy.
- All enhancement to the Blockchain can be managed for ecosystem compatibility.
- Ensures that the MeetCoin ecosystem does not suffer from congestion of another ecosystem using the same blockchain framework.
- MeetCoin can minimize risks associated from potential legal, economic, or geo-political use of a public blockchain project.

NOTICE

COUNTRIES RESTRICTED

Due to laws against cryptocurrency, residents from the following countries are not eligible to buy MeetCoin: United States of America, Republic of Singapore, China and Hong Kong.

MARKET FLUCTUATIONS AND FINANCIAL RISKS

After the ICO stage, the coin will be listed on exchange sites and will be used to pay for subscriptions on popular and startup dating sites, then the price fluctuation can no longer be determined by MeetCoin thus; we are not responsible for the fluctuation of the MeetCoin.

Every Cryptocurrencies have a high volatility and MeetCoin is not going to be an exception. Financial losses is inevitable in the event of acute fluctuations in cryptocurrency market.

UNCERTAINTIES

You are advised to seek for independent professional advice prior to acting on any of the information contained in this paper. MeetCoin neither guarantees nor accepts responsibility for the accuracy, reliability, current or completeness of this content.

INITIAL COIN OFFERING (ICO)

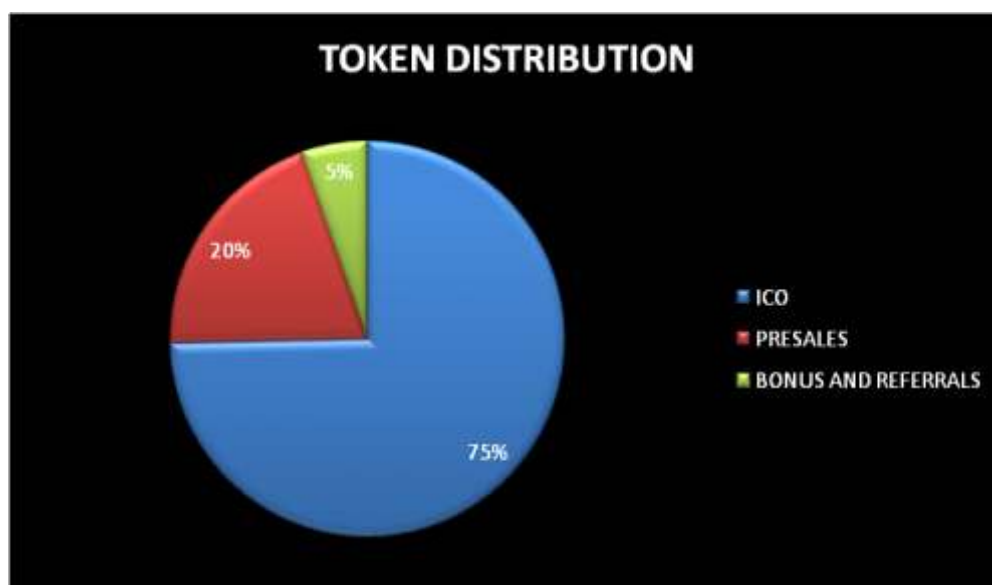

MeetCoin will be selling its own tokens to investor through Initial Coin Offering (ICO) to finance the project at various stages.

ICO is the most transparent way that will allow future holders of MeetCoin tokens earn on the growth of the tokens market value at the exchange market, as well as to get full access to the system's services by pre-purchasing tokens at an early stage of the project development for a notional value with an additional benefit.

Token Sales Schedule:

PRE-ICO	15TH MAY - 30TH MAY
ICO	1ST JUNE - 30TH JUNE
PRICE	START: \$ 1MEET = \$0.10 END: 1MEET = \$1.00
CROWDSALES	150,000,000MEETS
PAYMENT	BTC AND ETH

TOKEN DISTRIBUTION

MEETCOIN Revolutionary Cryptocurrency for Online Dating Industry

TOKEN BREAKDOWN

MeetCoin Token will be appreciating by \$0.10 upon the completion of every phase and end with the value of \$1.00.

BLOCK (8 PHASES)	AVAILABLE FOR SALE	PRICE
